**Subject:** RE: language for NM call center regarding private well preliminary results

Yes. I wrote this while waiting, and it got sent. I would still like to see NM's language for background Mn being high because I'm sure this is going to come up again.

Thanks!

Phil

**Subject:** FW: language for NM call center regarding private well preliminary results

Allison,

Attached please find the suggested language for inquiries regarding private well preliminary results. If citizens have further questions on this or other issues we would like to direct them to

the EPA Gold King Mine Response toll free #: 1-844-607-9700. Additionally, on our call today I believe the NM Department of Health indicated that they would like to provide their contact information as well. Please let me know if you have any questions.

Althea
